

## Jerry Cave bio

I am originally from Des Moines, Iowa. I attended Des Moines Technical High School—a vocational school—where I studied and learned all aspects of art including fine art, illustration, calligraphy, photography, and graphic design. I've lived in Arizona with my wife, Deborah and our children since 1987. Deborah and I moved to Gold Canyon at the end of September this year.

I've worked in sales in consumer electronics since 1975 and was fortunate to travel the world, but as a result, my art took a back seat for many years. I was finally able to retire from the CE world at the end of 2016 to focus on my art.

After several years of searching, I've found a wonderful photographer, and printer, both in Scottsdale—who both do fantastic work.- which has enabled me to offer fine art giclée prints that I am proud to offer to my family, friends, and customers

For years I worked in watercolor, as I found it to be a great challenge, but it left me wanting something more. In 2007 I worked a bit with oils, and in 2012 I experimented with acrylics on canvas, and found my 'wheelhouse.' My latest endeavor is a series of "My Favorite Tequilas." Fine art giclée prints of many of these are on exhibit at Los Dos Molinos Mexican Restaurant in Mesa, AZ and La Ristra Tequila Bar and Restaurant in Chandler, AZ. I enjoy the challenge of capturing reflected light and glass in still life paintings. I also have artwork in Canada, Australia, Norway, and South Africa

Much of my work is available for viewing at [www.jerrycaveart.com](http://www.jerrycaveart.com). Please contact me at [jerrycaveart.com](http://jerrycaveart.com) if you should have any questions.
