

## Don Lawrence Photography

Don was born and raised on the east coast and moved to Arizona in 2009 where he fell in love with the southwest. He lives and breathes the Arizona outdoors and it shows in his magnificent landscapes, showcasing his talent in such a way that we are able to see nature's beauty through his eyes.

Don loves to travel and find hidden and remote places, whether it be a hidden waterfall or a lone tree in the middle of nowhere. His stunning nighttime photos display dark skies full of gorgeous stars with a milky way that takes your breath away.

Don became a serious photographer in 2012 and has traveled throughout Arizona and Utah to capture the awe-inspiring photos that transport us into another dimension and give us a deeper appreciation of the unique and diverse world we live in.
