

Originally from Delaware. Mother of 2 and worked a career as a Registered Nurse. Kate has been interested in creating art since first grade, when introduced to it by her art teacher, Mrs. Covington, in grade school.

With a busy life, and full time career, she vowed to immerse herself more fully into art when she retired. She started out with pencil drawing of the feminine form and faces. At retirement, (semi), she tried her hand at watercolors and fell in love with that medium.

She learns something new with each piece and is happy to share her art and learn other means of creativity. It's what brings her peace and satisfaction.
